

COMMUNITY ACTION PLAN

GROUP PRESENTATION

Identified Community Problems	Propose Activity / Program	Objective Roles	Resources Needed	Persons Involved	Success Indicator	Expected Outcome
1.) Landslide	Tree Planting	<p>To prevent Casualties, Destruction and Maintain Natural Resources</p> <p>To serve as a community protection and Long-Term Sustainability</p>	Water Supply Tree Saplings Planting Equipment Safety Equipments Donations /Funds	Students, Volunteers DENR	Number of Volunteers and Donations, Survival Rate of Planted Trees, Reduction in Landslide Incidents, Long-Term Sustainability	Enhance Soil Stability and Erosion Control to Reduce Landslide Risk and Casualties
2.) Destruction of Habitats	Habitat Restoration and Supporting eco-friendly practices. Programs to stop harmful or explosive chemical	To preserve Natural Habitat & Healthy Biosphere	Financial Funds Human Capital, Tools and Equipments, Technology, Information, Time,	Biologist Community Groups Volunteers DENR Countrymens	Healthy Biosphere and Increase of Animal Living	Enhanced and Improved Biodiversity and Preserve a Healthy Habitat
3.) Occupational Health Hazards / Mining Hazards / Miner's Safety Hazards	Conduct Health Risk Assessment and Training and Education for Miners	To prevent any Dangerous Hazards or Casualties and to ensure the safety of the Miners	Communication Tools Monitoring Tools Professionals Safety Equipments	Trainers Educators Professionals Philippine Mine Safety and Environment Association	Miners are safe and reduction in workplace incidents	Lessen to none casualties or accident related to mining

1

IDENTIFIED COMMUNITY
PROBLEM

LANDSLIDE

PROPOSES ACTIVITY/PROGRAM

Tree Planting

Launch reforestation programs to stabilize soil and prevent erosion in landslide-prone areas.

Collaborate with environmental organizations and volunteers to plant trees.

OBJECTION RULES

To prevent Casualties, Destruction and Maintain

Natural Resources

To serve as a community protection and Long-

Term Sustainability

RESOURCES NEEDED

Water Supply

Tree Sapling

Planting Equipment

Personal Equipment

Donation/Funds

PERSONS INVOLVED

01

Students

02

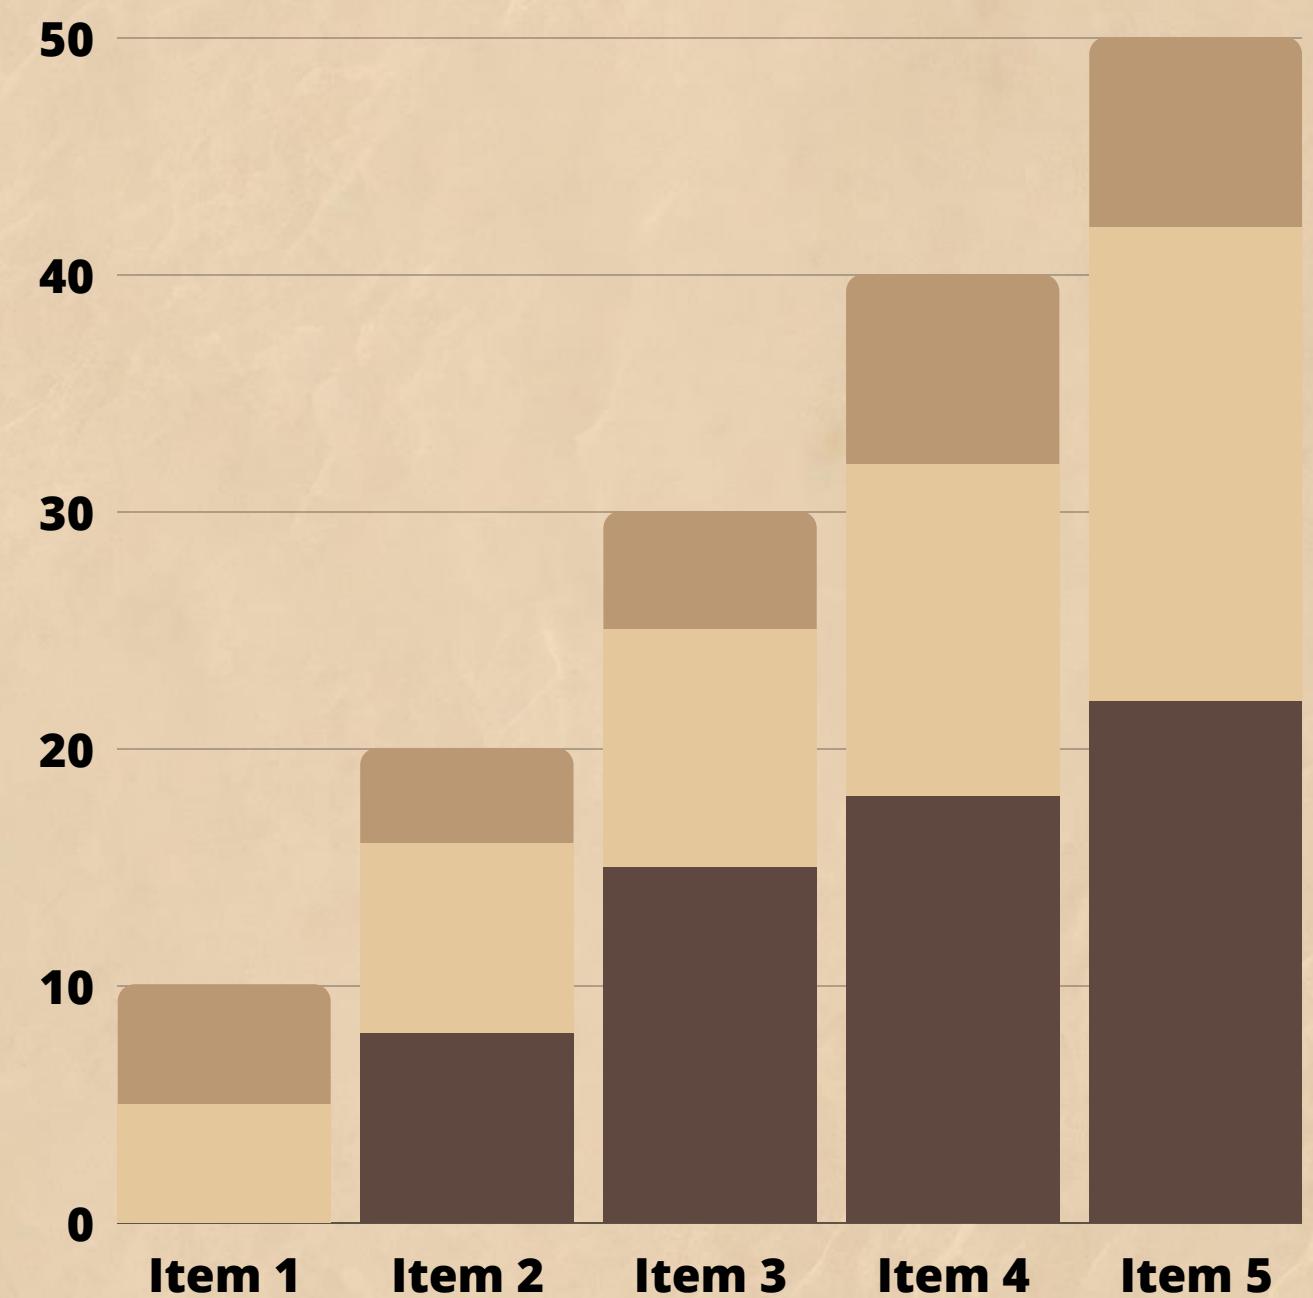

Volunteers

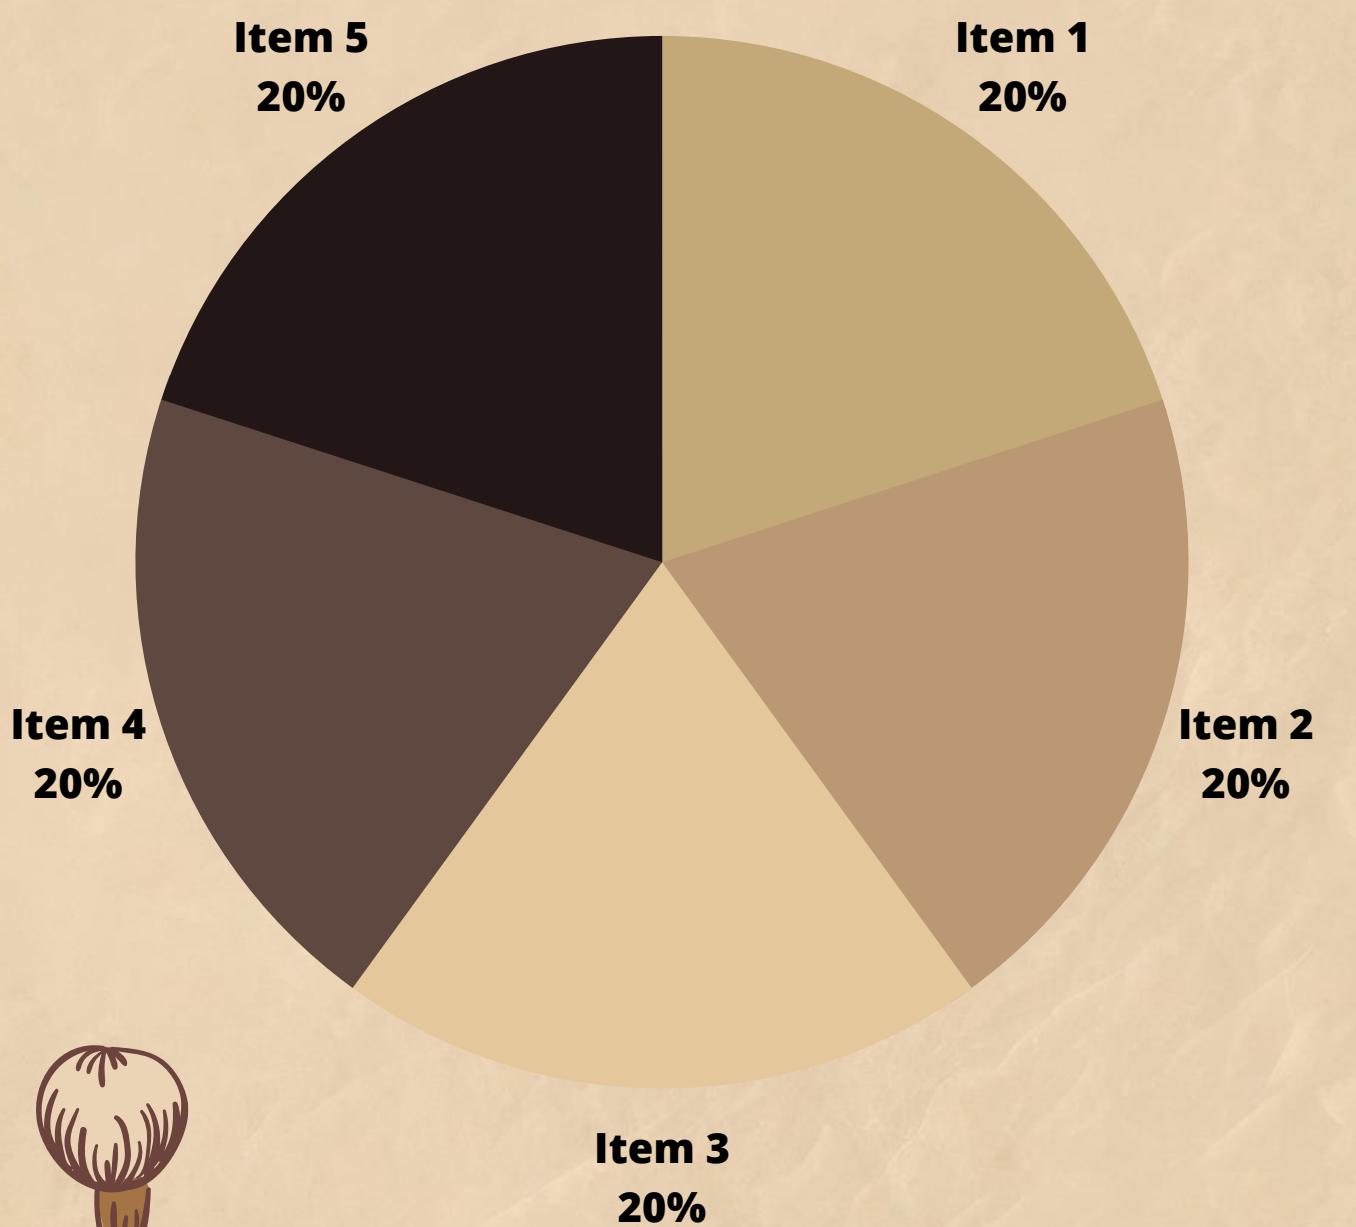

03

DENR

SUCCESS INDICATOR

- Number of Volunteers and Donations
- Survival Rate of Planted Trees
- Reduction in Landslide Incidents
- Long-Term Sustainability

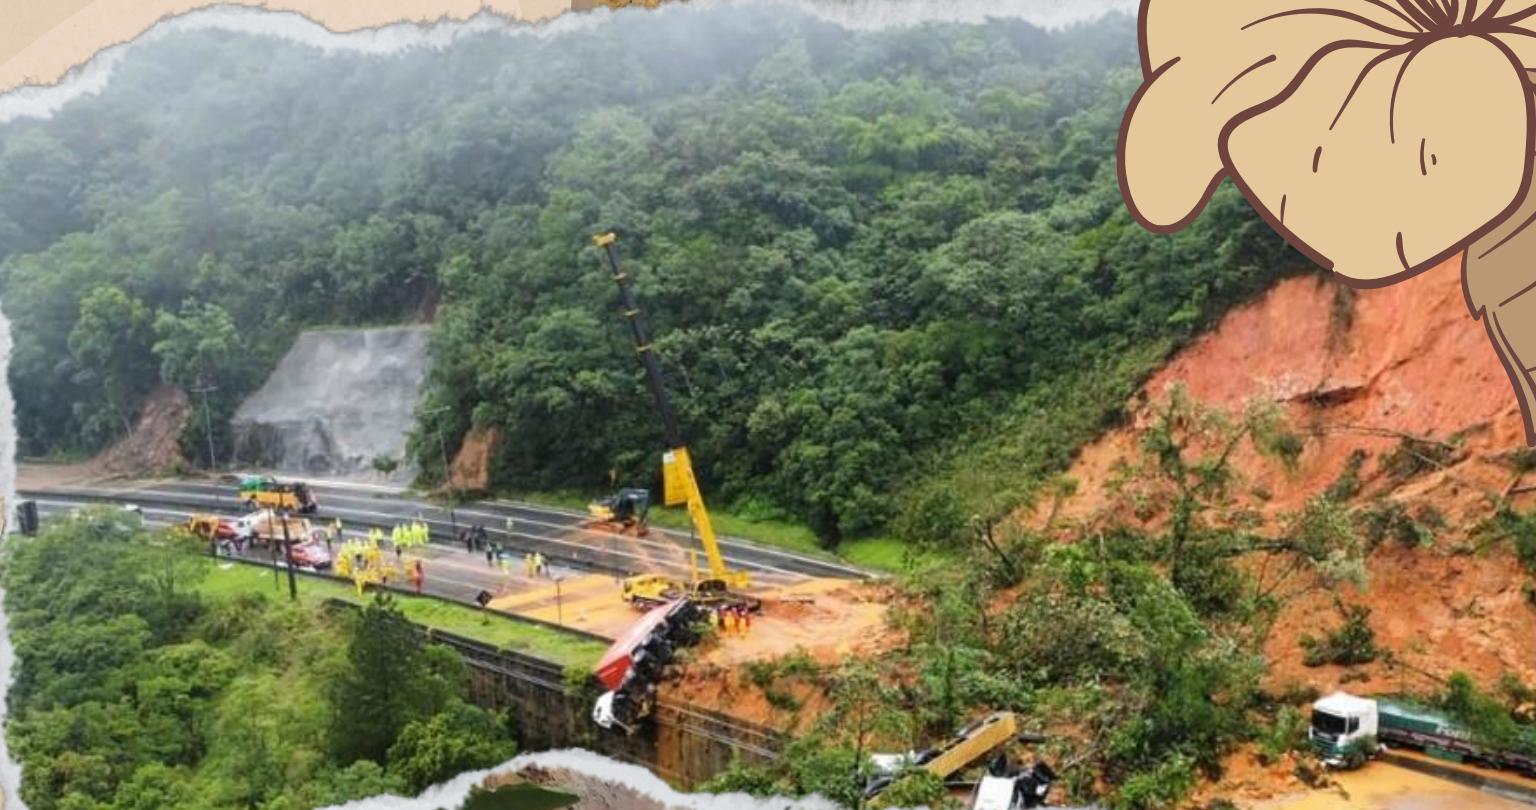

EXPECTED OUTCOME

Enhance Soil Stability and
Erosion Control to Reduce
Landslide Risk and
Casualties.

1

IDENTIFIED COMMUNITY PROBLEM

DESTRUCTION OF HABITATS

PROPOSES ACTIVITY / PROGRAM

Habitat Restoration and Supporting eco-friendly practices. Programs to stop harmful or explosive chemical

OBJECTION RULES

To preserve Natural Habitat & Healthy
Biosphere

RESOURCES NEEDED

Financial Funds

Human Capital

Tools and Equipments

Technology and
Information

Time

PERSONS INVOLVED

01

Biologist

02

Community
Groups

03

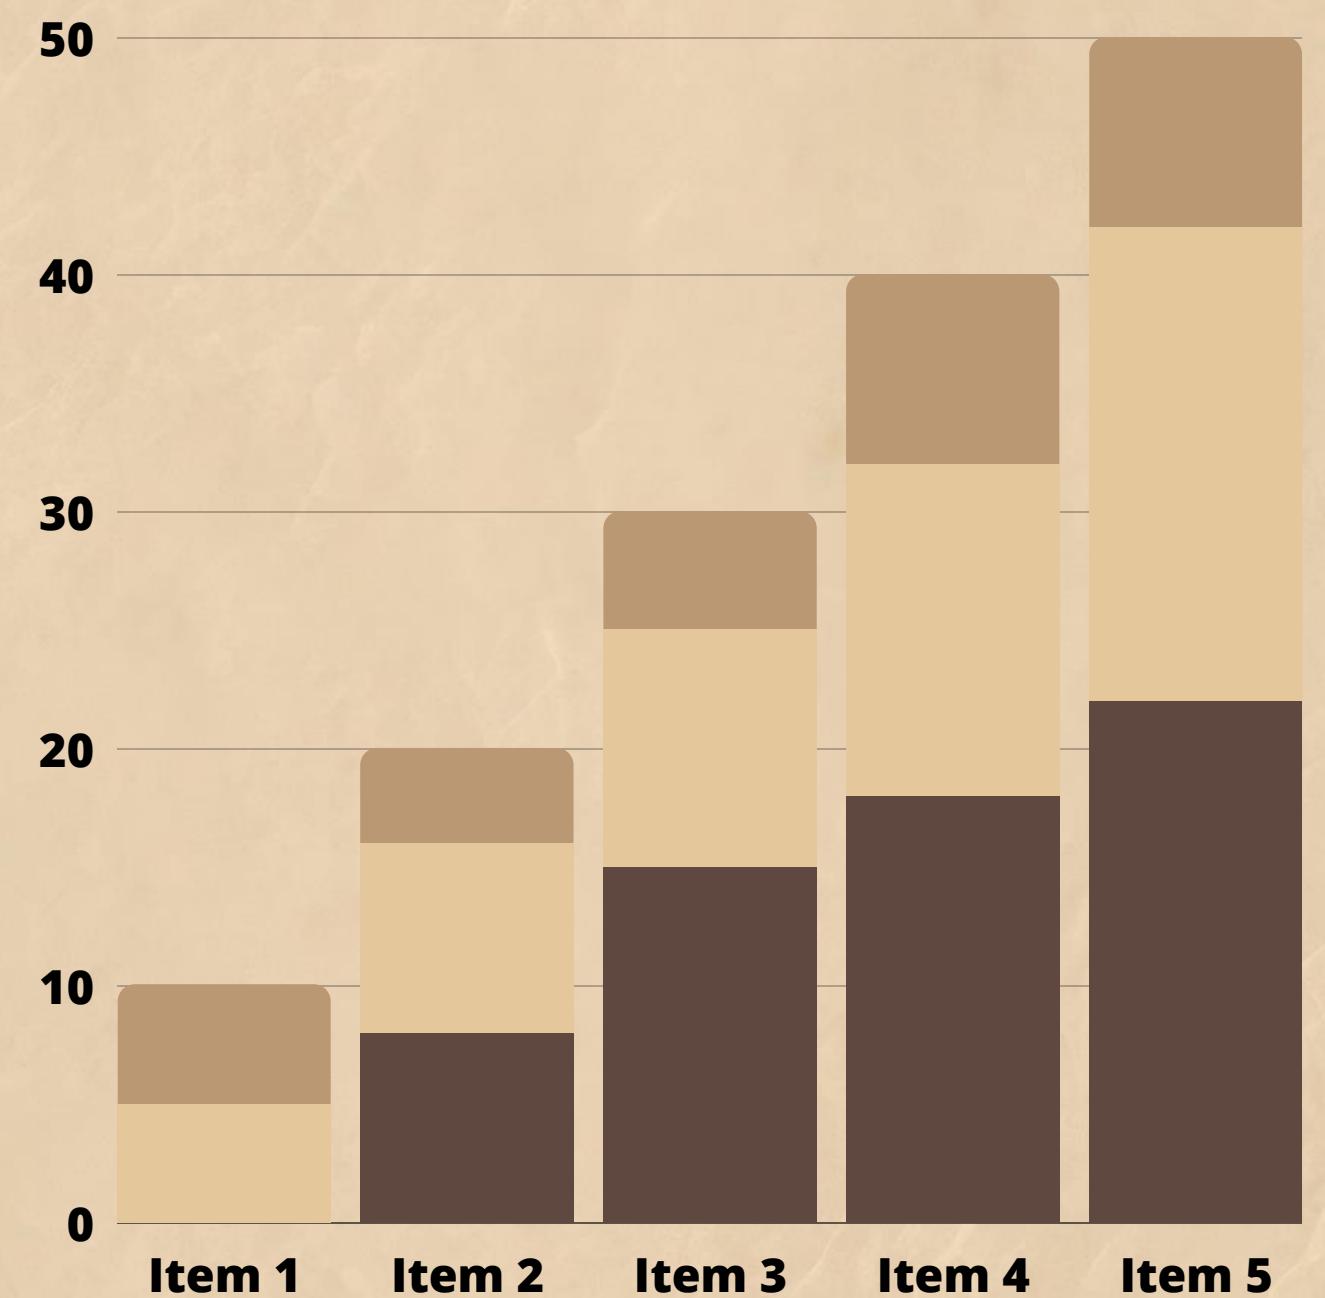

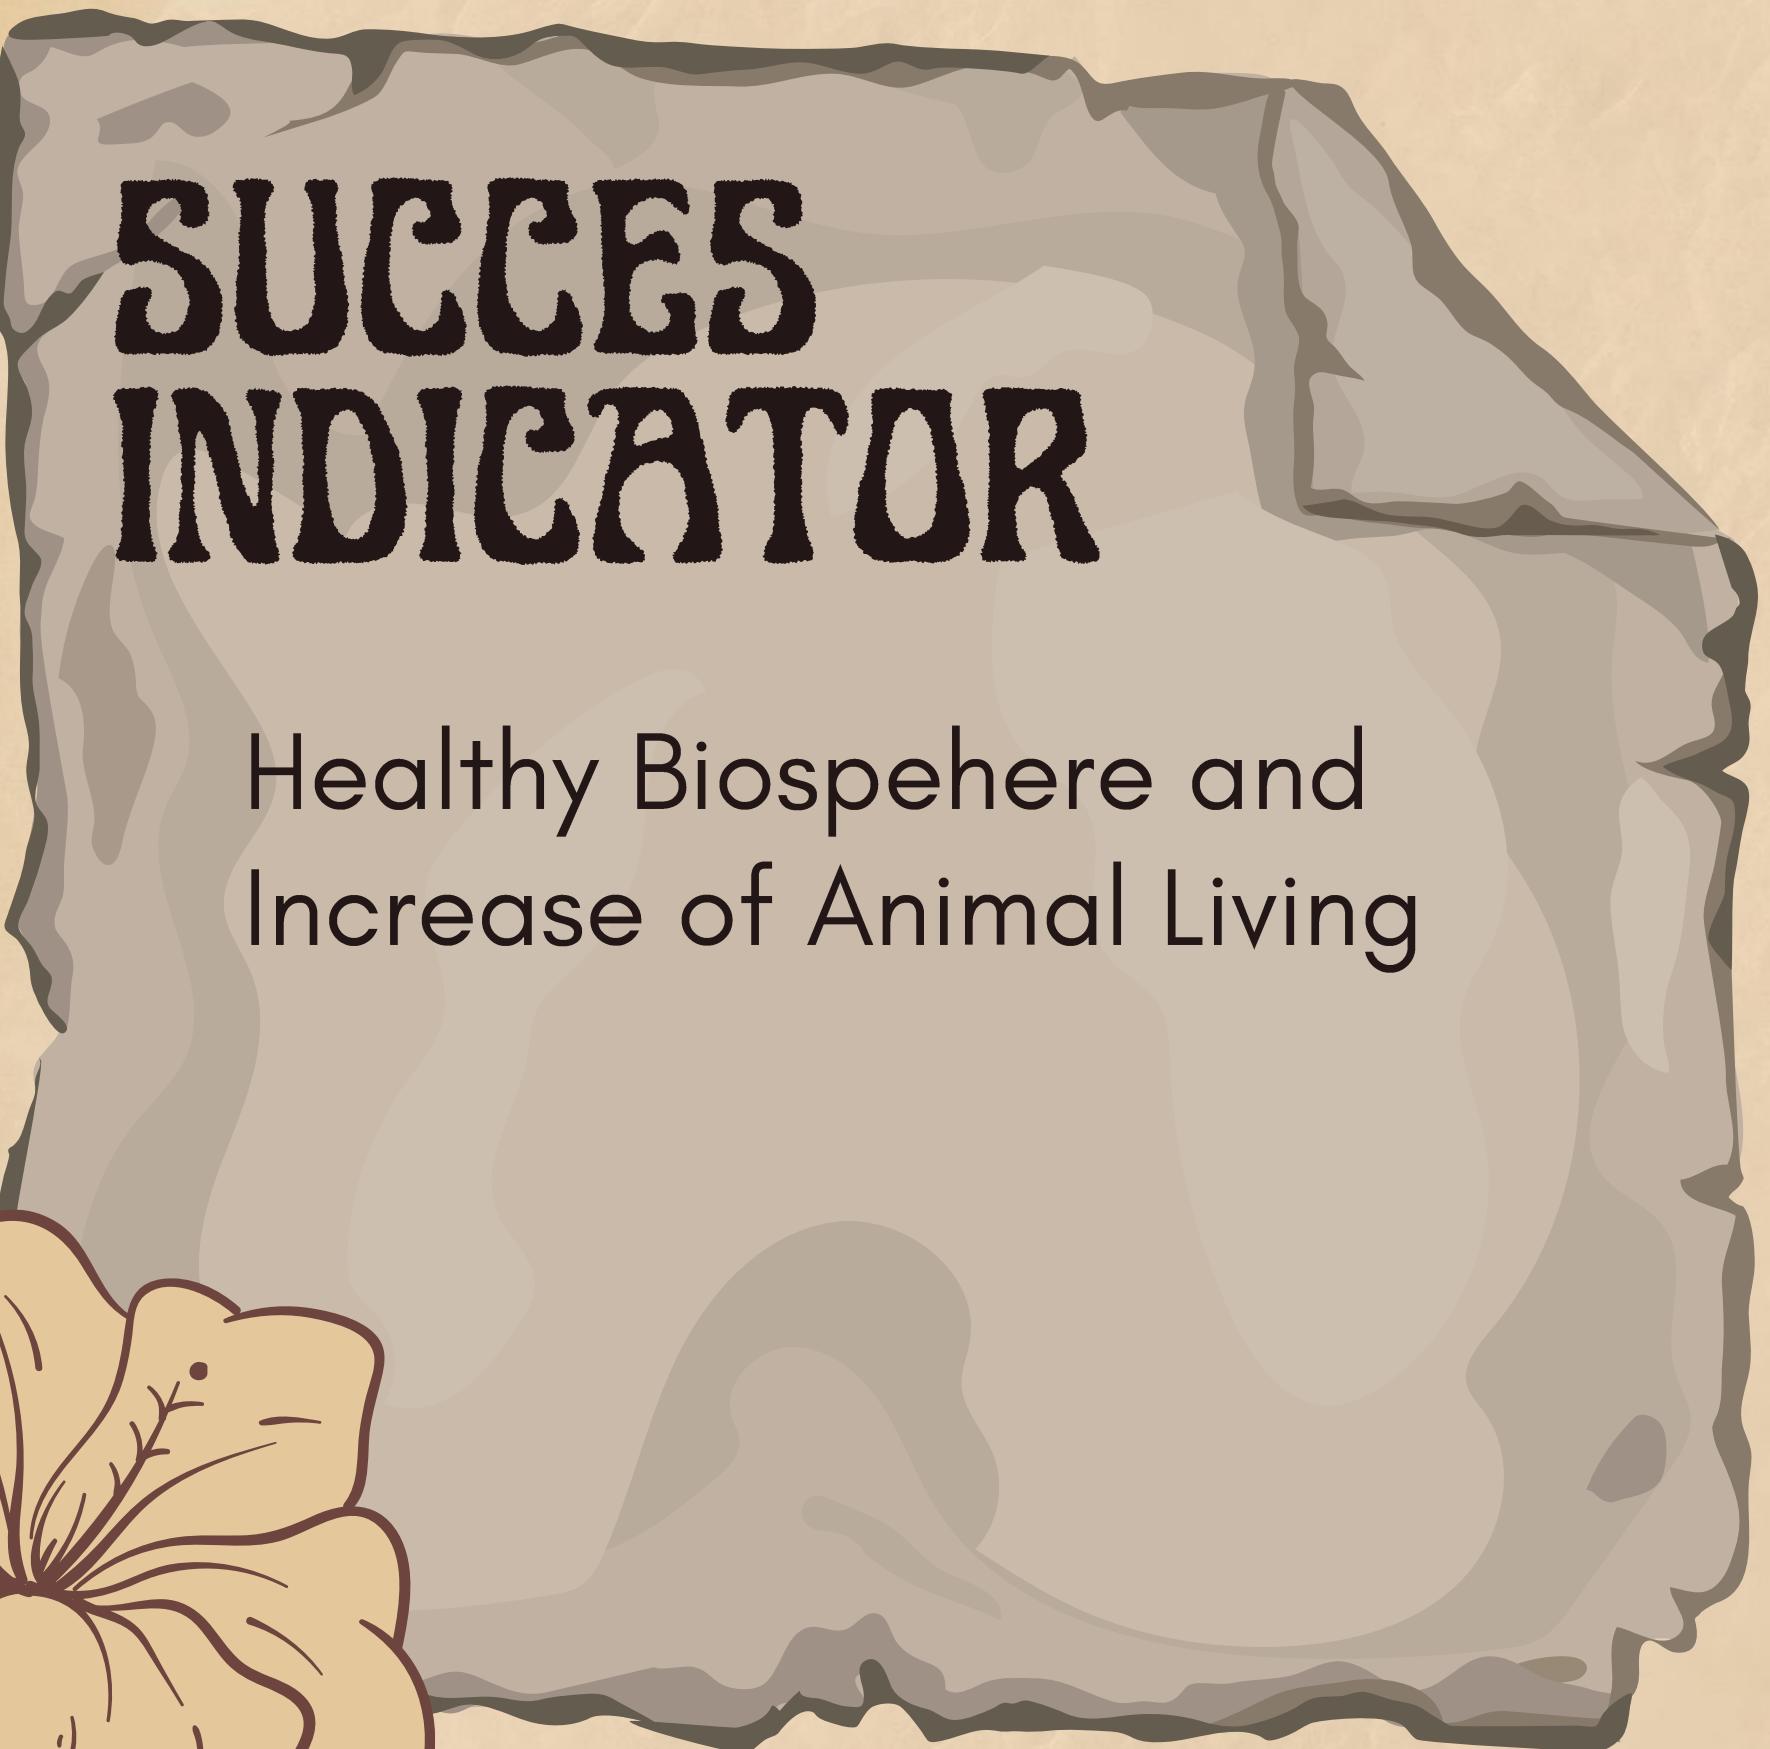

DENR

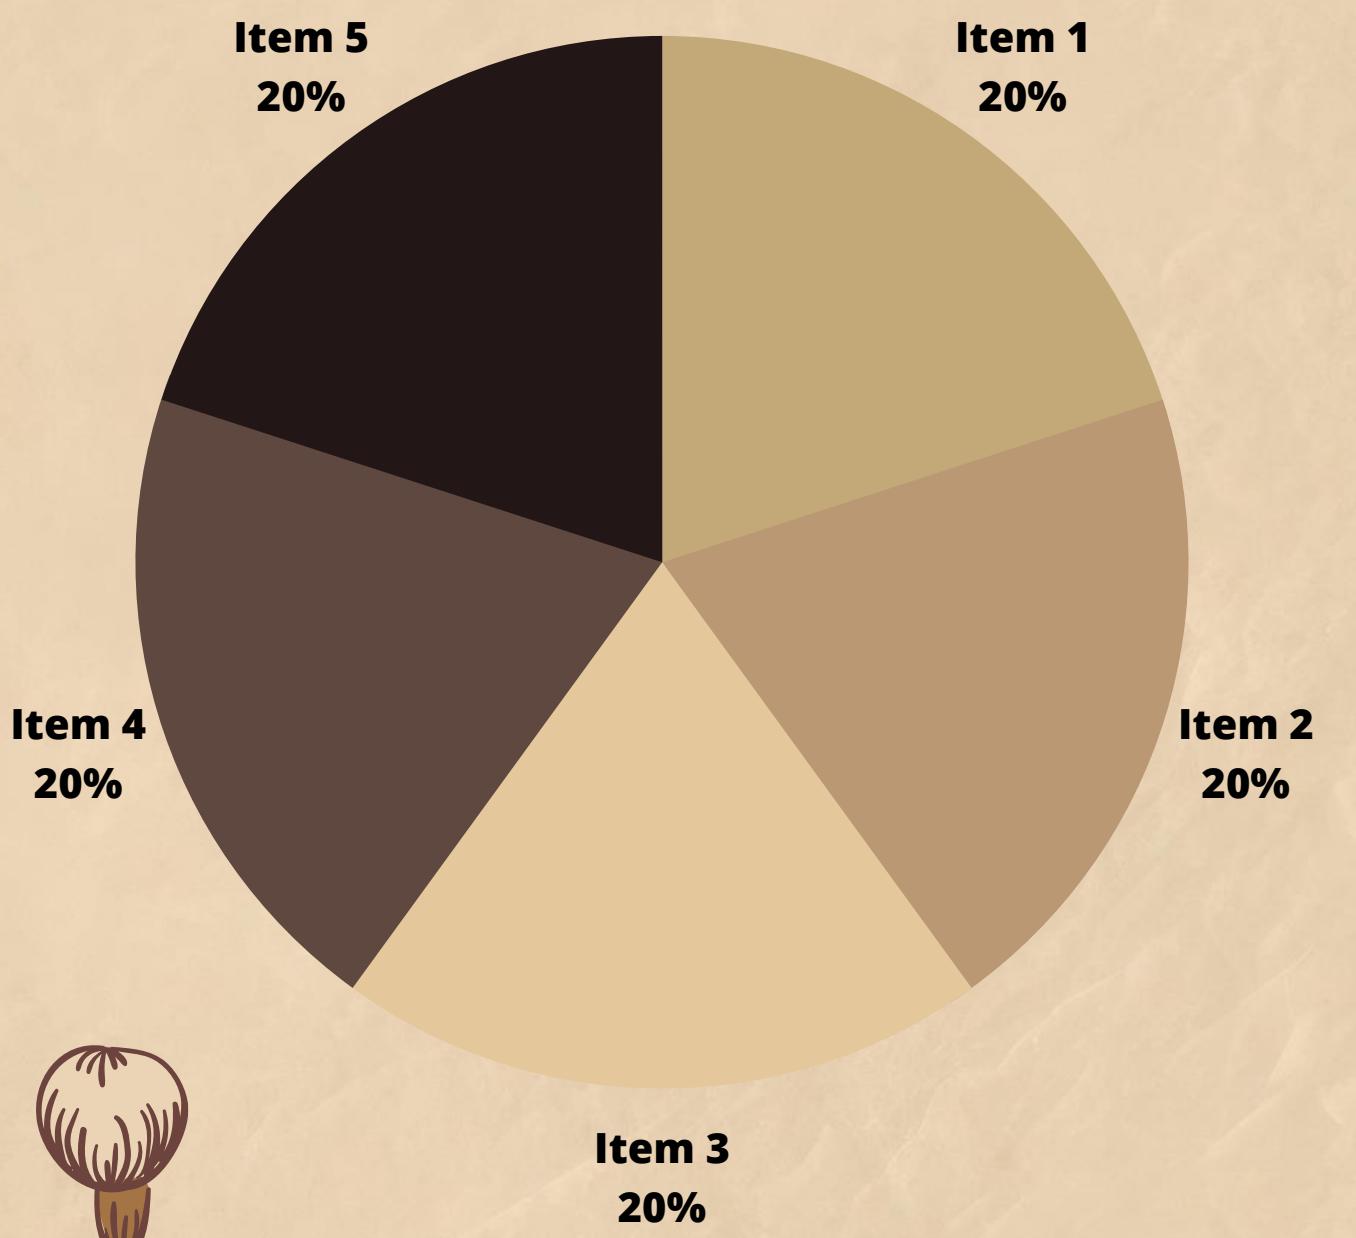

04

Volunteers

05

Countrymens

EXPECTED OUTCOME

Enhanced and Improved
Biodiversity and Preserve
a Healthy Habitat.

1

IDENTIFIED COMMUNITY PROBLEM

MINING HEALTH HAZARDS

PROPOSES ACTIVITY/PROGRAM

Conduct Health Risk Assessment and
Training and Education for Miners

OBJECTION RULES

To prevent any Dangerous Hazards or
Casualties and to ensure the safety of
the Miners

RESOURCES NEEDED

Communication Tools

Monitoring Tools

Professionals

Education for Miners

PERSONS INVOLVED

01

Trainers

02

Educators

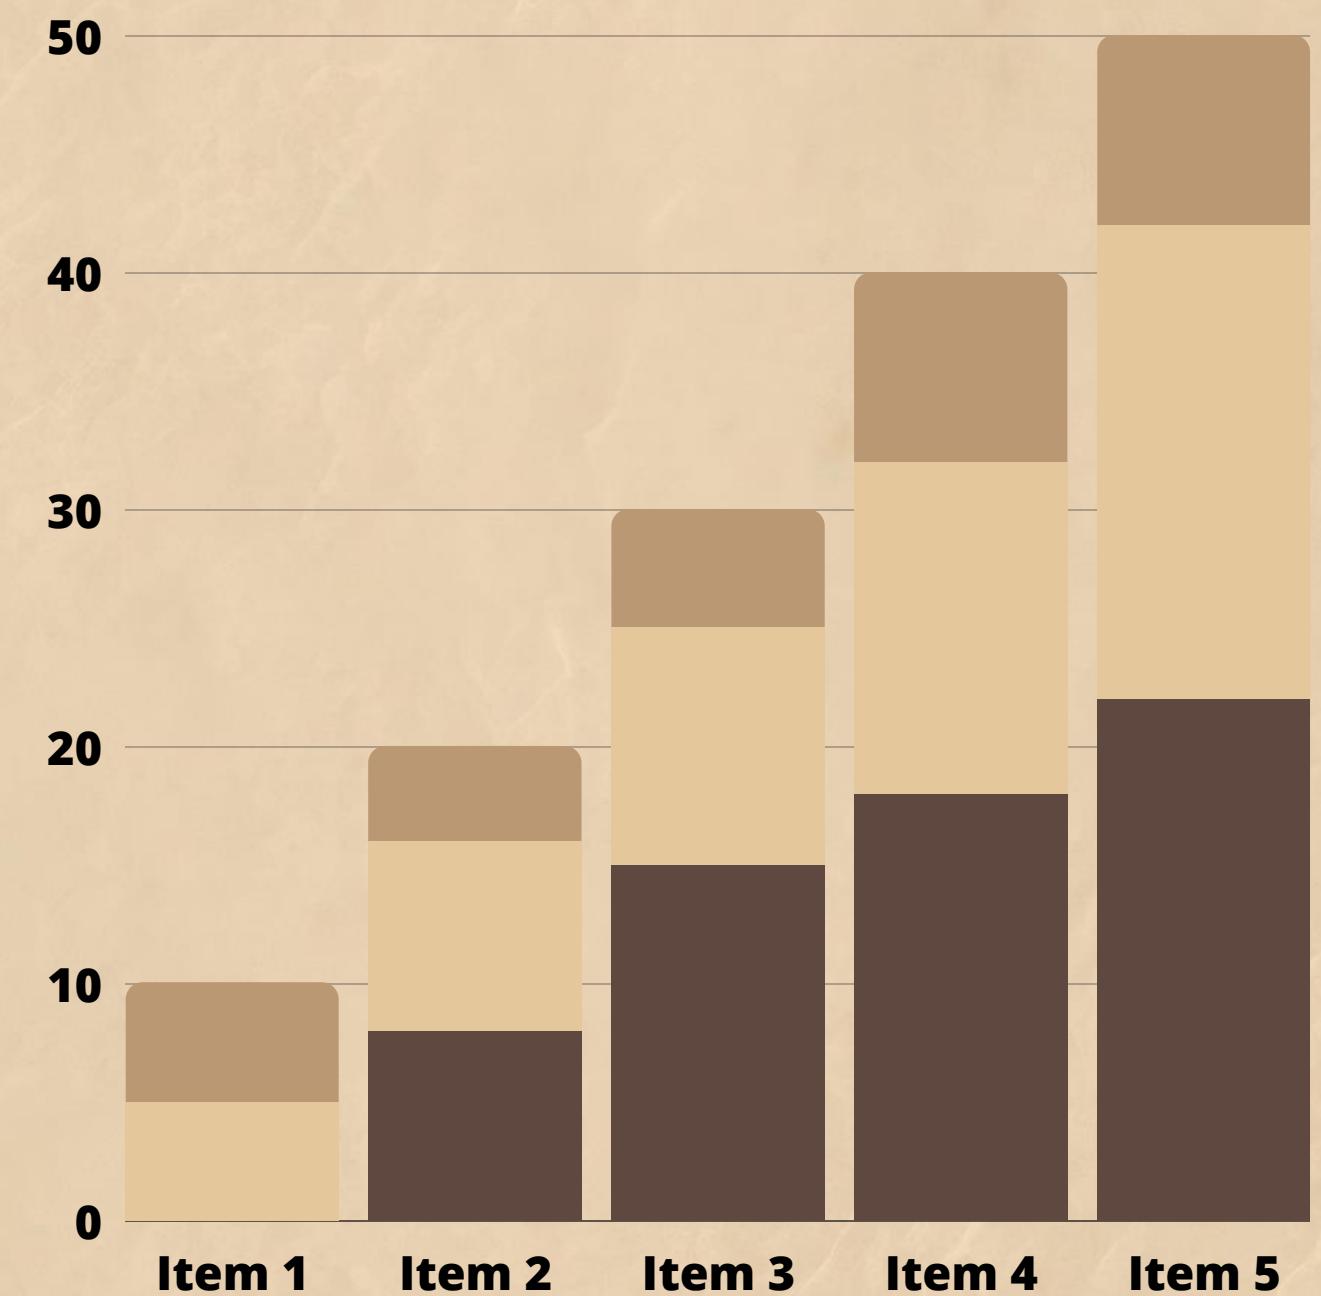

03

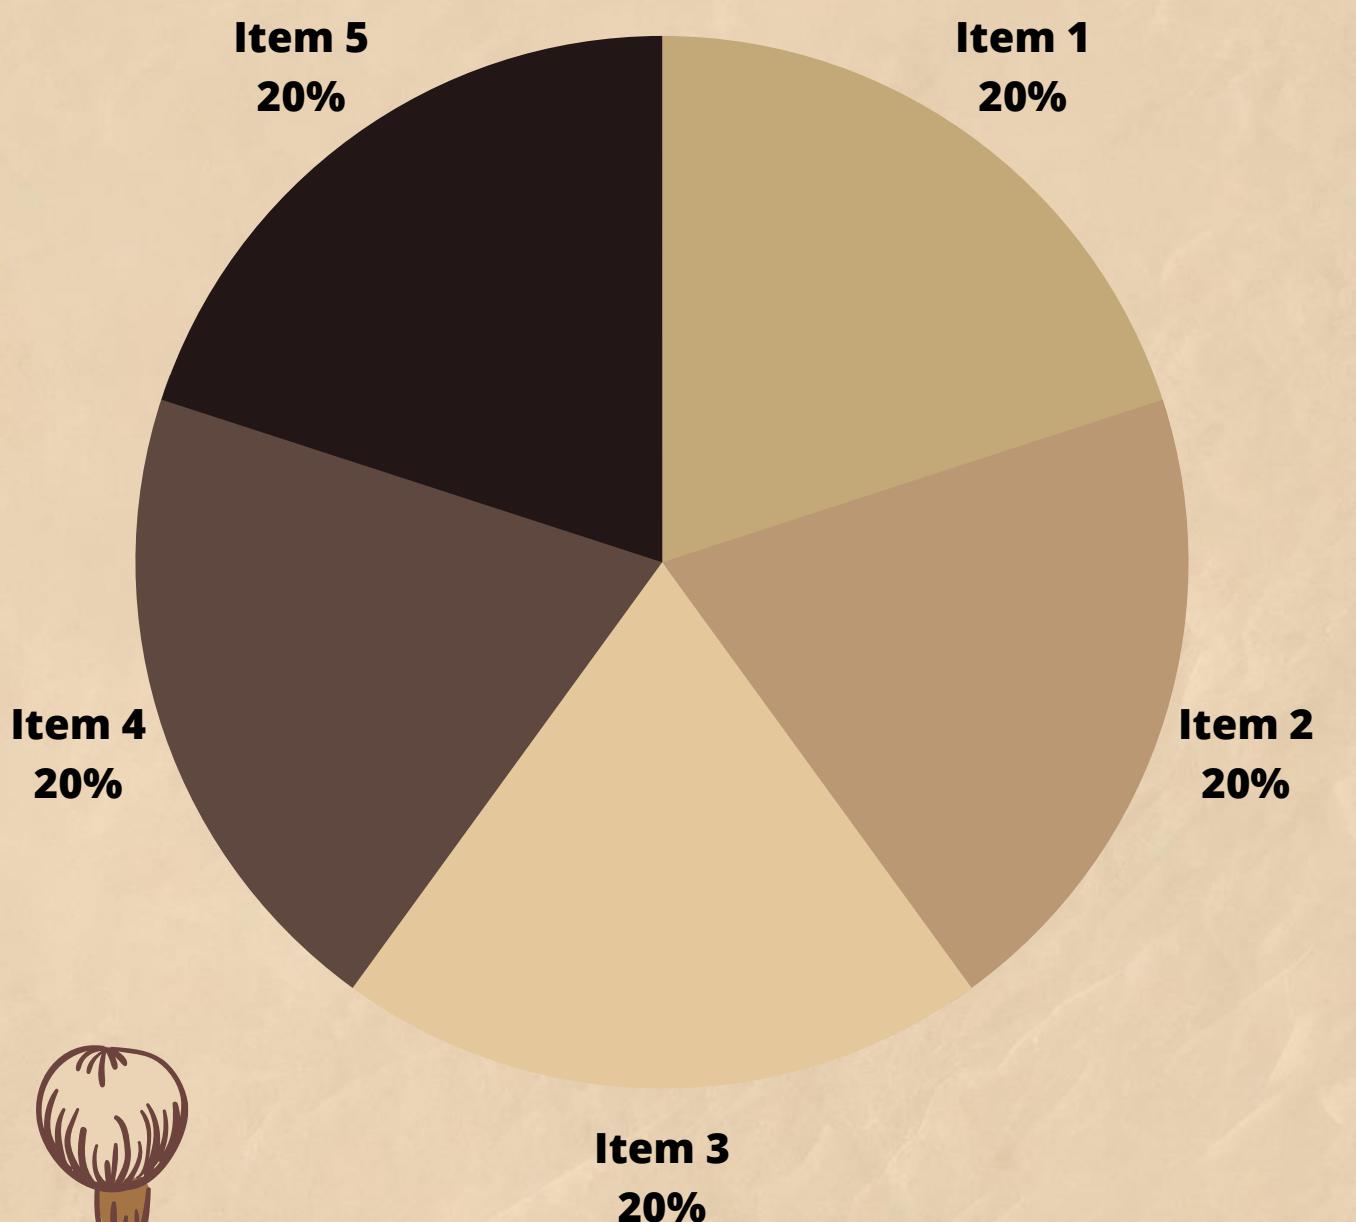

Professionals

Philippine Mine Safety and
Environment Association

SUCCESS INDICATOR

Miners are safe and
reduction in
workplace incidents.

EXPECTED OUTCOME

Lessen to none
casualties or
accident related to
mining.

**THANK
YOU**
